

MASTER in Surface Treatments for Industrial Applications

Istituto Nazionale di
Fisica Nucleare

Università degli Studi
di Padova

A.A. 2007/08 - Sixth Edition, for post-graduated students

*In collaboration with CONFINDUSTRIA VENETO
Under the Auspices of the TESLA TECHNOLOGY COLLABORATION*

ADVISORY BOARD:

V. Palmieri (Master Director)
R. Bozio, A. Carnera,
P. Favaron, G. Fortuna,
G. Granozzi, M. Guglielmi,
G. Paolucci, M. Pegoraro

Industrial Committee:

F. Jannacopulos (IRIGEM)
M. Peiniger (ACCEL)
A. Rava (VARIAN)
F. Terenziani (TFE)
G. Tonini (TAV)

Course Duration: February–December 2008

Registration Deadline: **October 31, 2007** However,
please check on the web link in case of
deadline extension

Course Site: Legnaro National Laboratories and
University of Padua - Italy

Grant aiding and fellowships are foreseen for the most deserving students

Programme

- Vacuum, High-Vacuum, Ultra High Vacuum
- PVD and CVD Deposition Techniques
- Protective, Functional and Decorative Coatings
- Automation and 3D CAD Drawing
- Chemical and Electrochemical finishing
- Surface Analysis Techniques
